INDEPENDENT AUDITORS' REPORT

Honorable Jeffrey F. Wiley Ascension Parish Sheriff Donaldsonville, Louisiana

We have audited the accompanying financial statements of the governmental activities, each major fund, and the fiduciary funds of the Ascension Parish Sheriff as of and for the year ended June 30, 2007, which collectively comprise the Sheriff's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the Ascension Parish Sheriff's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and fiduciary funds of the Ascension Parish Sheriff as of June 30, 2007, and the respective changes in financial position, thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with Government Auditing Standards, we have also issued a report dated December 27, 2007 on our consideration of Ascension Parish Sheriff's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards and should be considered in assessing the results of our audit.

The Management's Discussion and Analysis and budgetary comparison information on pages 9 through 15, and 35 respectively, are not a required part of the basic financial statements but are supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Sheriff's basic financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by U. S. Office of Management and Budget Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations, and is not a required part of the basic financial statements. The supplemental schedules contained on pages 36 through 39, which are also the responsibility of the Sheriff's management, are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the financial statements and, in our opinion, is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Honorable Jeffery F. Wiley Ascension Parish Sheriff Donaldsonville, Louisiana

We have audited the financial statements of the governmental activities, each major fund, and fiduciary funds of the Ascension Parish Sheriff's Office as of and for the year ended June 30, 2007, which collectively comprise the Ascension Parish Sheriff's office basic financial statements and have issued our report thereon dated December 27, 2007. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the Ascension Parish Sheriff's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Ascension Parish Sheriff's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the Ascension Parish Sheriff's internal control over financial reporting.

A control deficiency exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the Ascension Parish Sheriff's ability to initiate, authorize, record, process, or report financial data reliably in accordance with generally accepted accounting principles such that there is more than a remote likelihood that a misstatement of the Ascension Parish Sheriff's financial statements that is more than inconsequential will not be prevented or detected by the Ascension Parish Sheriff's internal control.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that a material misstatement of the financial statements will not be prevented or detected by the Ascension Parish Sheriff's internal control.

Our consideration of the internal control over financial reporting was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in the internal control that might be significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

Compliance and Other matters

As a part of obtaining reasonable assurance about whether the Ascension Parish Sheriff's Office financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance that are required to be reported under Government Auditing Standards.

We noted a certain matter that we reported to management of the Ascension Parish Sheriff in a separate letter dated December 27, 2007.

This report is intended solely for the information and use of the Ascension Parish Sheriff, management, and the Legislative Auditor of the State of Louisiana and is not intended to be and should not be used by anyone other than these specified parties. Under Louisiana Revised Statute 24:513, this report is distributed by the Legislative Auditor as a public document.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WIH REQUIREMENTS APPLICABLE TO EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133

Honorable Jeffrey F. Wiley Ascension Parish Sheriff Donaldsonville, Louisiana

Compliance

We have audited the compliance of Ascension Parish Sheriff with the types of compliance requirements described in the U. S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement that are applicable to each of its major federal programs for the year ended June 30, 2007. Ascension Parish Sheriff's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts, and grants applicable to each of its major federal programs is the responsibility of Ascension Parish Sheriff's management. Our responsibility is to express an opinion on Ascension Parish Sheriff's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in Governmental Auditing Standards, issued by the Comptroller General of the United States; and OMB Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Ascension Parish Sheriff's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of Ascension Parish Sheriff's compliance with those requirements.

In our opinion Ascension Parish Sheriff complied, in all material respects with the requirements referred to above that are applicable to each of its major federal programs for the year ended June 30, 2007.

Internal Control Over Compliance

The management of Ascension Parish Sheriff is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered Ascension Parish Sheriff's internal control over compliance with requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of Ascension Parish Sheriff's internal control over compliance.

A control deficiency in an entity's internal control over compliance exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect noncompliance with a type of compliance requirement of a federal program on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the entity's ability to administer a federal program such that there is a more than a remote likelihood that noncompliance with a type of compliance requirement of a federal program that is more than inconsequential will not be prevented or detected by the entity's internal control.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that material noncompliance with a type of compliance requirement of a federal program will not be prevented or detected by the entity's internal control.

Our consideration of the internal control over compliance was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above.

Ascension Parish Sheriff's response to the findings identified in our audit are described in the accompanying schedule of findings and questioned costs. We did not audit Ascension Parish Sheriff's response and, accordingly, we express no opinion on it.

Schedule of Expenditures of Federal Awards

We have audited the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Ascension Parish Sheriff as of and for the year ended June 30, 2007, and have issued our report thereon dated December 27, 2007. Our audit was performed for the purpose of forming opinions on the financial statements that collectively comprise the Assumption Parish School Board's basic financial statements taken as a whole. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by OMB Circular A-133 and is not a required part of the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

This report is intended solely for the information and use of management, others within the organization, and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties. Under Louisiana Revised Statute 24:513, this report is distributed by the Legislative Auditor as public document.

MANAGEMENTS DISCUSSION AND ANALYSIS June 30, 2007

This section of Ascension Sheriff's annual financial report presents our discussion and analysis of the Sheriff's financial performance during the fiscal year that ended on June 30, 2007.

FINANCIAL HIGHLIGHTS

- The Sheriff's total net assets increased approximately \$2.3 million or 17.3 percent over the course of this year's operations.
- During the year, the Sheriff's expenses were \$2.3 million less than the \$21.5 million generated in ad valorem and sales taxes, charges for services and operating grants for governmental programs.
- Expenses for the year were \$19.2 million, an increase of approximately \$1.6 million.
- The general fund reported a profit this year of \$1,474,562.

OVERVIEW OF THE FINANCIAL STATEMENTS

This annual report consists of four parts—management's discussion and analysis (this section), the financial statements, and required supplementary information, and other supplemental information. The financial statements include two kinds of statements that present different views of the Sheriff:

- The first two statements are government-wide financial statements that provide both long-term and short-term information about the Sheriff's overall financial status.
- The remaining statements are fund financial statements that focus on individual parts of the Sheriff's government, reporting the Sheriff's operations in more detail than the government-wide statements.
 - The governmental funds statements tell how general government services like public safety were financed in the short term as well as what remains for future spending.
 - Fiduciary fund statements provide information about the financial relationships in which the Sheriff acts solely as agent for the benefit of others, to whom the resources in question belong.

The financial statements also include notes that explain some of the information in the financial statements and provide more detailed data. The statements are followed by a section of required supplementary information that further explains and supports the information in the financial statements. Figure A-1 shows how the required parts of this annual report are arranged and relate to one another.

Figure A-1 summarizes the major features of the Sheriff's financial statements, including the portion of the Sheriff's government they cover and the types of information they contain. The remainder of this overview section of management's discussion and analysis explains the structure of contents of each of the statements.

MANAGEMENTS DISCUSSION AND ANALYSIS June 30, 2007

Government-wide Statements

The government-wide statements report information about the Sheriff as a whole using accounting methods similar to those used by private-sector companies. The statement of net assets includes all of the government's assets and liabilities. All of the current year's revenues and expenses are accounted for in the statement of activities regardless of when cash is received or paid.

The two government-wide statements report the Sheriff's net assets and how they have changed. Net assets—the difference between the Sheriff's assets and liabilities—is one way to measure the Sheriff's financial health, or position.

- Over time, increases or decreases in the Sheriff's net assets are an indicator of whether its financial health is improving or deteriorating, respectively.
- To assess the overall health of the Sheriff you need to consider additional nonfinancial factors such as changes in the Sheriff's property tax base and growth of Ascension Parish.

The government-wide financial statements of the Sheriff include:

Governmental activities—most of the Sheriff's basic services are included here, such as police and general
administration. Ad valorem and sales taxes, state and federal grants, and fees, charges, and commissions for
services finance most of these activities.

Fund Financial Statements

The fund financial statements provide more detailed information about the Sheriff's most significant funds—not the Sheriff as a whole. Funds are accounting devices that the Sheriff uses to keep track of specific sources of funding and spending for particular purposes.

MANAGEMENTS DISCUSSION AND ANALYSIS June 30, 2007

The Sheriff has two kinds of funds:

- Governmental funds—Most of the Sheriff's basic services are included in governmental funds, which focus on (1) how cash and other financial assets that can readily be converted to cash flow in and out and (2) the balances left at year-end that are available for spending. Consequently, the governmental funds statements provide a detailed short-term view that helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance the Sheriff's programs. Because this information does not encompass the additional long-term focus of the government-wide statements, we provide additional information at the bottom of the governmental funds statement, or on the subsequent page, that explains the relationship (or differences) between them.
- Fiduciary funds—These funds are used as depositories for civil suits, cash bonds, taxes, fees, deferred
 compensation plan, et cetera. Disbursements from these funds are made to various parish agencies, and litigants
 in suits, in the manner prescribed by law. These funds are custodial in nature (assets equal liabilities) and do not
 involve measurement of results of operations. We exclude these activities from the Sheriff's government-wide
 financial statements because the Sheriff cannot use these assets to finance its operations.

FINANCIAL ANALYSIS OF THE SHERIFF AS A WHOLE

Net assets. The Sheriff's net assets increased between fiscal years 2006 and 2007 to approximately \$15.9 million. (See Table A-1.)

MANAGEMENTS DISCUSSION AND ANALYSIS June 30, 2007

Changes in net assets. The Sheriff's total revenues increased by 3.7 percent. (See Table A-2.) Approximately 72 percent of the Sheriff's revenue comes from ad valorem and sales tax collections from Ascension Parish. Another 3 percent comes from federal programs. Charges for services represent 20 percent. The remaining 5 percent is comprised of miscellaneous fees and commissions and other intergovernmental revenue.

The total cost of all programs and services increased approximately \$1.6 million. The Sheriff's expenses cover all services performed by its office.

Governmental Activities

Revenues for the Sheriff's governmental activities increased 3.7 percent to \$21.5 million while total expenses increased \$1.6 million.

FINANCIAL ANALYSIS OF THE SHERIFF'S FUNDS

As the Sheriff completed the year, its governmental funds reported a fund balance of \$11.1 million, an increase from last year of approximately \$1.5 million. The primary reason for the general fund's profit is the increase in ad valorem and sales tax collections.

General Fund Budgetary Highlights

Over the course of the year, the Sheriff made amendments to the general fund budget. These budget amendments fall into three categories:

- Self generated revenue amendments were made to increase ad valorem taxes and sales taxes due to increases in collections.
- Intergovernmental revenues increased to reflect necessary adjustment regarding federal grant spending.
- Fees, charges, and commissions increased by \$771,486.

Expenditures were amended in total by approximately \$1.2 million. Even with these adjustments, actual expenditures were approximately \$818,000 below final budget amounts.

CAPITAL ASSETS

At the end of 2007, the Sheriff had invested \$5,998,962 in capital assets. (See Table A-3.)

This year's major capital assets additions include:

- The purchase of sixty-five new law enforcement vehicles for deputies costing approximately \$1,345,000.
- Software and Computer equipment totaling \$145,000.
- One Hundred and eight mobile radios were also purchased costing approximately \$299,000.
- Generator for the range totaling \$53,300

MANAGEMENTS DISCUSSION AND ANALYSIS June 30, 2007

CAPITAL ASSETS (continued)

This year's major capital asset deletions include:

• The disposal of vehicles, radios and computer equipment costing approximately \$459,000.

The amounts budgeted for capital outlay for the 2006-2007 fiscal year total \$1,264,081. This amount represents amounts for automobiles, motorcycles, and other vehicles, and also for other equipment to be purchased with federal grants.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS AND RATES

The Sheriff is dependent on ad valorem and sales tax collections for 71 percent of its revenues. The economy is not expected to generate any significant growth. The 2008 budget includes amounts available for appropriations of \$21.3 million, an increase of 2.1 percent over the final 2007 budget. Property taxes (benefiting from the 2007 increases in assessed valuations) are expected to lead an increase of approximately 4 percent. Also, federal grant revenue is budgeted for 66% less than 2007 budget.

Budgeted expenditures are expected to rise nearly 8.7 percent to \$21.3 million. The largest increments are increases in deputies' salaries, supplemental and budgeted overtime pay.

If these estimates are realized, the Sheriff's budgetary general fund balance is expected to increase modestly by the close of fiscal year end 2007.

CONTACTING THE SHERIFF'S FINANCIAL MANAGEMENT

This financial report is designed to provide our citizens, taxpayers, customers, and investors and creditors with a general overview of the Sheriff's finances and to demonstrate the Sheriff's accountability for the money it receives. If you have questions about this report or need additional financial information, contact the Ascension Parish Sheriff's Office, PO Box 268, Donaldsonville, LA 70346.

NOTES TO THE FINANCIAL STATEMENTS

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

As provided by Article V, Section 27 of the Louisiana Constitution of 1974, the sheriff serves a four-year term as the chief executive officer of the law enforcement district and ex-officio tax collector of the parish. The sheriff administers the parish jail system and exercises duties required by the parish court system, such as providing bailiffs, executing orders of the court, and serving subpoenas.

As the chief law enforcement officer of the parish, the sheriff has the responsibility for enforcing state and local laws and ordinances within the territorial boundaries of the parish. The sheriff provides protection to the residents of the parish through on-site patrols and investigations and serves the residents of the parish through the establishment of neighborhood watch programs, anti-drug abuse programs, et cetera. In addition, when requested, the sheriff provides assistance to other law enforcement agencies within the parish.

As the ex-officio tax collector of the parish, the sheriff is responsible for collecting and distributing ad valorem property taxes, parish occupational licenses, state revenue sharing funds, and fines, costs, and bond forfeitures imposed by the district court.

A. BASIS OF PRESENTATION, BASIS OF ACCOUNTING

BASIS OF PRESENTATION

The accompanying financial statements of the Ascension Parish Sheriff have been prepared in conformity with accounting principles generally accepted in the United States of America as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles.

GOVERNMENT-WIDE STATEMENTS:

The statement of net assets and the statement of activities display information about the primary government (the Sheriff). These statements include the financial activities of the overall government, except for fiduciary activities. Governmental activities generally are financed through taxes, intergovernmental revenues and other nonexchange transactions.

NOTES TO THE FINANCIAL STATEMENTS

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

A. BASIS OF PRESENTATION, BASIS OF ACCOUNTING (continued)

The statement of activities presents a comparison between direct expenses and program revenues for each function of the Sheriff's governmental activities. Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular function. Indirect expense allocations that have been made in the funds have been reversed for the statement of activities. Program revenues include (a) fees, fines, and charges paid by the recipients of goods or services offered by the programs and (b) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues, including all taxes, are presented as general revenues.

FUND FINANCIAL STATEMENTS:

The fund financial statements provide information about the Sheriff's funds, including its fiduciary funds. Separate statements for each fund category- governmental and fiduciary- are presented. The emphasis of fund financial statements is on major governmental funds.

The Sheriff reports the following major governmental fund:

General Fund

The General Fund, as provided by Louisiana Revised Statute 33:1422, is the principal fund of the sheriff's office and accounts for the operations of the sheriff's office. The sheriff's primary source of revenue is an ad valorem tax levied by the law enforcement district. Other sources of revenue include sales tax, commissions on state revenue sharing, state supplemental pay for deputies, civil and criminal fees, fees for court attendance, and maintenance of prisoners, et cetera. General operating expenditures are paid from this fund.

The Sheriff reports the following fund types:

Agency Funds

The agency funds are used as depositories for civil suits, cash bonds, taxes, fees, deferred compensation plan, et cetera. Disbursements from these funds are made to various parish agencies, litigants in suits, et cetera, in the manner prescribed by law. The agency funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations.

NOTES TO THE FINANCIAL STATEMENTS

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

B. REPORTING ENTITY

GASB Statement 14 established criteria for determining the governmental reporting entity and component units that should be included within the reporting entity. Under provisions of this Statement, the Sheriff is considered a primary government, since it is a special purpose government, the Sheriff is elected, is legally separate, and is fiscally independent of other state or local governments. As used in GASB Statement 14, fiscally independent means that the Sheriff may, without the approval or consent of another governmental entity, determine or modify its own budget, levy its own taxes or set rates or charges, and issue bonded debt. The Sheriff also has no component units, defined by GASB Statement 14 as other legally separate organizations for which the Sheriff is financially accountable. There are no other primary governments with which the Sheriff has a significant relationship.

C. BASIS OF ACCOUNTING/MEASUREMENT FOCUS

The Governmental Wide Financial Statements (GWFS) and fiduciary fund statements are reported using the economic resources measurement focus. The government wide financial statements are reported using the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flows take place. Nonexchange transactions, in which the Sheriff gives (or receives) value without directly receiving (or giving) equal value in exchange, include property taxes, grants, and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from grants, entitlements, and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied.

GOVERNMENTAL FUND FINANCIAL STATEMENTS

Governmental funds are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. The Sheriff considers all revenues reported in the governmental funds to be available if the revenues are collected within sixty days after year-end. Property taxes, sales taxes, franchise taxes, and interest are considered to be susceptible to accrual. Expenditures are recorded when the related fund liability is incurred, except for claims and judgments and compensated absences, which are recognized are expenditures to the extent they have matured. General capital asset acquisitions are reported as expenditures in governmental funds.

All governmental activities of the Sheriff follow FASB Statements and Interpretations issued on or before November 30, 1989, Accounting Principles Board Opinions, and Accounting Research Bulletins, unless those pronouncements conflict with GASB pronouncements.

NOTES TO THE FINANCIAL STATEMENTS

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

D. BUDGET PRACTICES

The proposed budget for the year ended June 30, 2007, was made available for public inspection and comments from taxpayers at the sheriff's office on June 16, 2006. The proposed budget, prepared on the modified accrual basis of accounting, was published in the official journal 10 days prior to the public hearing, which was held at the sheriff's office on June 26, 2006, for comments from taxpayers. The budget is legally adopted and amended, as necessary, by the sheriff.

All expenditure appropriations lapse at year end. Unexpended appropriations and any excess of revenues over expenditures are carried forward to the subsequent year as beginning fund balance.

Formal budget integration (within the accounting records) is employed as a management control device. Budget amounts included in the accompanying financial statements include the original adopted budget and all subsequent amendments.

E. ENCUMBRANCES

Encumbrance accounting, under which purchase orders are recorded in order to reserve that portion of the appropriation, is not employed.

F. CASH AND CASH EQUIVALENTS

Cash includes amounts in demand deposit accounts, interest-bearing demand deposits, and money market accounts. Cash equivalents include amounts in time deposits and other investments with original maturities of 90 days or less. Under state law, the sheriff may deposit funds in demand deposit accounts, interest-bearing demand deposit accounts, money market accounts, or time deposits with state banks organized under Louisiana law and national banks having their principal offices in Louisiana. Tax collections must be deposited in a bank domiciled in the parish where the funds are collected.

G. CAPITAL ASSETS

All capital assets are capitalized at historical cost, or estimated historical costs for assets where actual cost is not available. Donated fixed assets are recorded at their fair value at the date of donation. The Sheriff maintains a threshold level of \$1,000 or more for capitalizing assets. The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend the assets' lives are not capitalized.

NOTES TO THE FINANCIAL STATEMENTS

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

G. CAPITAL ASSETS

Capital assets are recorded in the GWFS, but are not reported in the FFS. Since surplus assets are sold for an immaterial amount when declared no longer needed for public purposes, no salvage value is taken into consideration for depreciation purposes.

Capital assets are depreciated using the straight-line method over the following estimated useful lives:

	Estimated
Asset Class	<u>Useful Lives</u>
Buildings	40
Building Improvements	20-30
Vehicles	5-15
Equipment	3-15

H. COMPENSATED ABSENCES

The liability for compensated absences reported in the government-wide statements consists of unpaid, accumulated annual and compensatory balances. The liability has been calculated using the vesting method, in which leave amounts for both employees who currently are eligible to receive termination payments and other employees who are expected to become eligible in the future to receive such payments upon termination are included.

The following vacation hours are earned during a fiscal year:

Years of Service	Hours Per Month	Hours Per Year	
0 to one year (at completion)	4	48	
1-6 years of service	8	96	
7-12 years of service	10	120	
13-17 years of service	12	144	
18 years of service	14	168	

NOTES TO THE FINANCIAL STATEMENTS

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

H. COMPENSATED ABSENCES (continued)

Upon retirement, unused annual leave up to a maximum of 160 hours, may either go towards retirement or shall be paid. Upon death, unused annual leave up to a maximum of 160 hours shall be paid. Upon termination of an employee with less than 12 years of service, unused annual leave, up to a maximum of 80 hours, shall be paid.

All employees earn eight hours per month for sick leave (96 hours per year). Upon retirement, death or termination of an employee, unused sick leave is not payable.

The cost of leave privileges is recognized as current year expenditure in the General Fund when leave is actually taken.

I. FUND EQUITY

Reserves

Reserves represent those portions of fund equity not appropriable for expenditures or legally segregated for a specific future use.

2. LEVIED TAXES

The sheriff has authorized and levied an ad valorem tax of 14.48 mills.

NOTES TO THE FINANCIAL STATEMENTS

3. CAPITAL ASSETS

Capital assets and depreciation activity as of and for the year ended June 30, 2007, are as follows:

NOTES TO THE FINANCIAL STATEMENTS

4. CASH AND CASH EQUIVALENTS

At June 30, 2007, the sheriff has unrestricted cash and cash equivalents (book balances) as follows:

Petty Cash	\$ 4,000
Interest-bearing demand deposits	10,305,122
Time	1,062,602
Total	\$ 11,371,724

Restricted cash totals \$627,060 at June 30, 2007.

These deposits are stated at cost, which approximates market. Under state law, these deposits (or the resulting bank balances) must be secured by federal deposit insurance or the pledge of securities owned by the fiscal agent bank.

5. Custodial Credit Risk

Custodial credit risk is the risk that in the event of a bank failure, the government's deposits may not be returned to it. The government does not have a deposit policy for custodial credit risk as of June 30, 2007, \$13,715,803 of the government's bank balance was not exposed to custodial credit risk.

6. RECEIVABLES

The General Fund receivables at June 30, 2007 are as follows:

Total	\$ 1,239,643

NOTES TO THE FINANCIAL STATEMENTS

7. PENSION PLAN

Plan Description. Substantially all employees of the Ascension Parish Sheriff's office are members of the Louisiana Sheriff's Pension and Relief Fund (System), a cost-sharing, multiple-employer defined benefit pension plan administered by a separate board of trustees.

All sheriffs and all deputies who are found to be physically fit, who earn at least \$800 per month, and are 18 years of age or older at the time of original employment are required to participate in the System. Employees are eligible to retire at or after age 55 with at least 12 years of credited service and receive a benefit, payable monthly for life, equal to a percentage of their final-average salary for each year of credited service. The percentage factor to be used for each year of creditable service is 3.33 percent. In any case, the retirement benefit cannot exceed 100 percent of their final-average salary. Final-average salary is the employee's average salary over the 36 consecutive or joined months that produce the highest average. Employees who terminate with at least 12 years of service and do not withdraw their employee contributions may retire at or after age 55 and receive the benefit accrued to their date of termination as indicated previously. Employees who terminate with at least 20 years of credited service are also eligible to elect early benefits between ages 50 and 55 with reduced benefits equal to the actuarial equivalent of the benefit to which they would otherwise be entitled at age 55. The System also provides death and disability benefits. Benefits are established or amended by state statute.

The System issues an annual publicly available financial report that includes financial statements and required supplementary information for the System. That report may be obtained by writing to the Louisiana Sheriffs Pension and Relief Fund, P. O. Box 3163, Monroe, Louisiana 71220, or by calling (318)362-3191.

Funding Policy. Plan members are required by state statute to contribute 11.00 percent of their annual covered salary and the Ascension Parish Sheriff is required to contribute at an actuarially determined rate. The current rate is 11.00 percent of annual covered payroll. As of April 1, 1996, the Sheriff's office also pays the employees contribution percentage. Contributions to the System also include one-half of one percent of the taxes shown to be collectible by the tax rolls of each parish and funds as required and available from insurance premium taxes. The contribution requirements of plan members and the Ascension Parish Sheriff are established and may be amended by state statute. As provided by Louisiana Revised Statute 11:103, the employer contributions are determined by actuarial valuation and are subject to change each year based on the results of the valuation for the prior fiscal year. The Ascension Parish Sheriff's contributions to the System, including the employee's portion starting April 1, 1996, for the years ending June 30, 2007, 2006, and 2005, were \$2,456,553, \$2,264,508, and \$1,964,099, respectively.

NOTES TO THE FINANCIAL STATEMENTS

8. OTHER POSTEMPLOYMENT BENEFITS

The sheriff does not provide continuing health care or life insurance benefits for its retired employees.

9. CHANGES IN AGENCY FUND BALANCES

A summary of changes in agency fund balances due to taxing bodies and others follows:

	Balance at Beginning of year	Additions	Reductions	Balance at End of Year
Agency funds:				
Civil Account	\$397,231	\$4,111,494	\$4,010,929	\$497,796

10. TAXES PAID UNDER PROTEST

The unsettled balances due to taxing bodies and others in the agency funds at June 30, 2007, include \$63,932 of taxes paid under protest, plus interest earned to date on the investment of these funds, totaling \$1,765. These funds are held pending resolution of the protest and are accounted for in the Tax Collector Agency Fund.

11. LITIGATION AND CLAIMS

At June 30, 2007, the sheriff was involved in several lawsuits. In the opinion of the sheriff's legal counsel, the ultimate resolution of these claims would not create a liability to the sheriff in excess of existing insurance coverage.

12. EXPENDITURES OF THE SHERIFF'S OFFICE PAID BY THE PARISH COUNCIL

The sheriff's office is located in the parish courthouse. Expenditures for maintenance and operation of the parish courthouse, as required by state statute, are paid by the Ascension Parish Council and are not included in the accompanying financial statements.

NOTES TO THE FINANCIAL STATEMENTS

13. RESERVE FOR SELF INSURED HEALTH AND ACCIDENT PLAN

On August 1, 1992 the sheriff began providing health and accident insurance coverage for his employees. The plan is funded by the General Fund for employee coverage and by employee premiums paid for dependent coverage. The office is obligated to pay all claims up to \$70,000 per person covered up to an aggregate of \$1,673,253, and the excess is insured with an insurance company up to \$1,000,000.

A liability for a claim is established if information indicates that it is probable that a liability has been incurred at the date of the financial statements and the amount of the loss is reasonably estimable.
